Client Meeting Log-Week 5

Client Meeting Log

Adding Feedback to AMMBER — Team T6-2 Sonnet

1. Meeting Details

Item	Detail
Date	27 Aug 2026
Time	4:00 P.M.
Location / format	Room G51–G52, Ground Floor, Building 260, 200 Berkeley Street, Carlton South VIC 3053 — in person

2. Members

- Sotaro Mitsutake
- Haidong Tang (Rocky)
- Yanzhe Chen
- Yilan Fang
- Taishen Yang

3. What Has Been Implemented

The following work existed in the codebase at the time of the meeting.

Item	What it does	Where it sits
Feedback system	Reviewer comment panel, comments linked to goals, arrows drawn from comment to goal, feedback stored in the saved .json file	Feedback-System-Draft — not merged
Grading system	Grade form (total score, component scores, overall comment) and a grade view shown when a graded file is opened	Feedback-System-Draft — not merged

Annotated export	Export as PNG with feedback and Export as SVG with feedback	Feedback-System-Draft — not merged
Status tracker	Prototype for sending a model, viewing it and tracking its state	status-tracking — not merged
UI design changes	Distinct hover colours for the Reset, Export and Save buttons; drag-hover highlight on hierarchy nodes	develop

The observation recorded in the meeting was that the team has implemented more functionality than the client's requirements call for. The specific points and the actions agreed follow in section 4.

4. Items Not Meeting the Requirement, and Agreed Actions

Item	Why it does not meet the requirement	Action	Status as at 2 Sep
Button colours	Every button is to remain blue	Revert the per-button colour scheme	Appears done — commit a95e6f0, 31 Aug, on develop
Tool bar	Not required	Delete	Commit cb4cf1a, 28 Aug, hides the model-editing toolbar while feedback is shown — confirm this is what was meant
Export with feedback	Export is expected for the normfal model only	Delete both the PNG and SVG options	Appears done — commit e751b88, 28 Aug
Status tracker	No data server is planned, so the data cannot be tracked	Drop the prototype	—

Grading system	Treated as outside the requirement	Confirm with the client before removing	Removed on branch grade-system, commit 9fbc8ee, 2 Sep — confirm the client was asked first
Staff mode button	Should be aligned with the existing buttons	Align with the Create and Open Model buttons	Appears done — commit 2172d5c, 29 Aug
Review access	A reviewer should not be able to edit the model	Limit the reviewer to viewing feedback only	Partly covered by cb4cf1a — confirm editing is actually blocked
Open Model	Feedback is not visible when a model is opened this way	Make feedback visible	—
Empty (reset) button	[the meeting note records no detail]	[to be confirmed]	—

The status column is taken from commit messages on the fork as at 2 September and has not been confirmed with the authors. A dash means no corresponding change was found.
