Week11 Tutorial

Week 11 – Tutorial session (Thursday 15 October)

Date	Thursday 15 October 2026
Time	4:00 PM
Location	Tutorial room
Type	Tutorial session

Description

Showed the tour moving to the Render Model page after the goal-entry steps, with the graph centred. Merged the handover document (PR #32) and toast notifications (PR #3) into main. Showed the redesigned user manual page.

Decisions

- Treat HANDOVER.md as the main handover reference for the client
- Update the user manual's version control section in both the web and PDF versions

Client Approval

- Client Confirmed & Approved again for our all implementation after the demonstration for all features
- Need to prepare handover (continue HANDOVER.md)
